A4 Antislip Flap Folder (25)

2102385

Overview

Secure Filing Rexel Anti-slip pockets and folders are ideal for managing everyday documents on and around your desk. Made from material that is 2 times less slippery than standard polypropylene, you really can feel secure about your filing!

Description

Getting organised needs to be quick and painless and these folders simply help to achieve hassle-free filing, whether at your desk or on the move.
The anti-slip range of filing products is made from a specially formulated material that is 2.5 times less slippery than standard polypropylene. So once you have built the filing mountain in your in-tray, it is less likely to topple over, ensuring that your paperwork remains securely in place; little touches that make all the difference.

The folders' contents are effortlessly accessed with side access and a tuck-in flap which ensures that papers are easily filed and remain securely in place, whether they are on your desk, in your briefcase or under your arm.

These premium quality folders are made for the long-haul and optimum wear-and-tear owing to the durable (150 micron) opaque polypropylene material. They will also easily and securely hold up to 30 A4

sheets of paper, and come in packs of 25.

In essence, these folders combine all the advantages of traditional wallets and folders, but with the added advantage of less slip, a side-access tuck-in flap, in a durable, wipe-clean opaque material.

Filing should always be this effortless; get that paperwork under control, so you can spend more time on the fun stuff.

Features

- 150 micron Anti-Slip PP
- Ideal desk top folder for storing and organising projects or loose documents
- Side opening with tuck in security flap, keeps contents secure
